Results To-Date

- San Mateo, San Francisco and Santa Clara are submitting retroactive claims to draw down federal funds. We are prioritizing the retroactive claiming periods due to the federal two year claiming limit.

- Santa Cruz County's revised proposal has been finalized and is awaiting submission of the next C-CHIP SPA (early 2007). There are a total of 22 counties who currently have a Healthy Kids Program implemented. MRMIB will be soliciting the other 16 counties to see if they are interested in participating in C-CHIP.

- Tulare County has withdrawn its C-CHIP proposal from consideration for the second SPA submission. They indicated that it is not financially feasible for them to participate; the number of potentially S-CHIP eligible children enrolled in the county program is lower than first thought.
