Long Term Program Retention

Findings:

- Average 1 year retention rate is 79.94 %
- Average 2 year retention rate is 69.25%
- Average 3 year retention rate is 61.60%
- Average 4 year retention rate is 55.02%
- Average 5 year retention rate is 49.04%
- Average 10 year retention rate is 25.20%
- Average 11 year retention rate is 20.84%
- 71.9% of subscribers were enrolled continuously
- 27.9% of subscribers had over 12 months break in coverage
- 0.20% of subscribers had breaks in coverage over 2 months up to 12 months
- Non-Payment disenrollment has increased this year over last. There are two primary drivers of this increase. Primarily, the upswing in disenrollments coincides with the economic downtown. Secondly, there has been an increase in the number of subscribers disenrolling after the premium increase.

Assumptions:

- Enrollment Assessment from July 1998 to December 2009
- Charts on page two and three are point in the snapshots and do not account for breaks in coverage; separate query on sample provided data on continuity of coverage.
- Retention queries were also done by FPL and ethnicity; there were on discernable trends in those reports.
